

## CURRICULUM VITAE

**Name:** Johan Fredin-Knutzén

**Date of Birth:** 1982-11-21

**Address:** Karossvägen 17, 125 33 Älvsjö, Sweden

**Telephone:** +46 (0) 736 640134

**E-mail:** [johan.fredin.2@ki.se](mailto:johan.fredin.2@ki.se)

### Profile

Programme Director, and clinical psychologist at the National Centre for Suicide Research and Prevention, NASP, Region Stockholm Health Care Services, affiliated with Karolinska Institutet. I specialise in suicide prevention in transport systems and public environments, with a focus on structural interventions, implementation and applied research. My work includes leading research and development projects, evaluating preventive measures, advising infrastructure stakeholders and coordinating collaboration with national authorities, transport organisations and international expert networks. I also have operational experience as a train driver and train traffic controller in the Stockholm metro, as well as consultancy experience in the Swedish railway sector within operational safety, organisational development and risk management.

### Key qualifications

- Programme Director at Region Stockholm NASP with a focus on suicide prevention in transport systems and public environments.
- Subject matter expert in suicide prevention in transport systems and public environments.
- Project leader for externally funded research and development projects exceeding SEK 35 million, and key contributor to additional funded projects in railway suicide prevention.
- PhD candidate at Karolinska Institutet, expected defence 2026.
- Published peer reviewed evaluations of railway fencing interventions.
- Clinical psychologist with background from child and adolescent psychiatry.
- Operational background from the Stockholm metro as train driver and traffic controller.

### Current Position

Programme Director, Suicide Prevention Programme in Transport Systems and Public Environments, NASP, Region Stockholm Health Care Services

My work focuses on suicide prevention through structural interventions in transport systems and public environments. The role includes:

- leading research and development projects on suicide prevention in rail transport and other public environments
- providing expert advice to regional, national and international infrastructure projects
- supporting the development, evaluation and implementation of preventive measures
- coordinating collaboration with public authorities, transport organisations and international expert networks
- translating research findings into practical recommendations for infrastructure planning and operational safety

## Education

- **2022–Ongoing:** Doctor of Philosophy candidate, Karolinska Institutet
- **2022:** Instructor in "Acute intervention for a suicidal person", Karolinska Institutet & Region Stockholm
- **2015:** Clinical Psychologist, Division of Child and Adolescent Psychiatry, Region Stockholm
- **2014:** Psychologist, Department of Psychology, Stockholm University
- **2008:** Train Traffic Controller, Stockholm Metro, Veolia Transport
- **2007:** Metro & Tram Emergency Response Coordinator/Mobile Train Traffic Controller, Stockholm Metro, Veolia Transport
- **2007:** Signal Operator, Stockholm Metro, Veolia Transport
- **2003:** Train Driver, Stockholm Metro, Connex Tunnelbanan

## Research, innovation, development, and methods projects

- Project leader. Research project funded by Trafikverket investigating suicide preventive measures in the rail transport system, 2026–ongoing. Budget: SEK 5.0 million.
- Project leader. Research project funded by Trafikverket investigating the societal costs of suicides and other injury events within the Swedish transport system, 2024–ongoing. Budget: SEK 0.6 million.
- Co-investigator. Research project funded by Trafikverket examining the effects of blue LED lights for suicide prevention in rail transport, 2024–ongoing. Budget: SEK 3.1 million.
- Project leader. Development project funded by Uppdrag Psykisk Hälsa focused on the implementation of new measures for suicide prevention on bridges, 2023–ongoing. Budget: SEK 4.8 million.
- Project leader. Several development projects funded by Uppdrag Psykisk Hälsa on the implementation of new suicide prevention measures in regional traffic systems, adaptation of training for staff working in public environments, and development of a strategic plan for suicide prevention in the Stockholm metro and other rail-bound traffic operated by SL, 2022–2026. Total budget: SEK 17.1 million.
- Project leader. Development project funded by Uppdrag Psykisk Hälsa focused on the implementation of new suicide prevention measures in the Stockholm metro, 2020–2022. Budget: SEK 4.8 million.
- Project leader. Research project funded by Trafikverket investigating suicide preventive measures in the transport system, 2021–2024. Budget: SEK 3.6 million.
- Co-investigator. Research project funded by Trafikverket developing a new measure for suicide prevention in rail transport, 2020. Budget: SEK 0.8 million.
- Co-investigator. Research project funded by Trafikverket assessing safety measures at station areas, 2020. Budget: SEK 0.9 million.
- Project leader. Research project funded by Trafikverket conducting a scoping review of suicide preventive measures in the transport system, 2020. Budget: SEK 0.6 million.

#### **Presentations at national conferences**

- **Fredin-Knutzén, J.** (2025-10-22). *Ny forskning om suicidpreventiva insatser*. The Swedish National Suicide Prevention Conference, Karlstad
- **Fredin-Knutzén, J.** (2025-10-22). *Psykologens kunskap om bakomliggande faktorer*. The Swedish National Suicide Prevention Conference, Karlstad
- **Fredin-Knutzén, J.** (2025-05-08). *Three scalable and innovative suicide prevention measures for rail networks*. Swedish Suicide Research Conference, Stockholm
- **Fredin-Knutzén, J.** (2024-01-18). *Suicidprevention på järnväg. Två pilotstudier av skalbara åtgärder*. Transportforum, Linköping
- **Fredin-Knutzén, J.** (2023-10-25). *Skalbara interventioner för att förebygga suicid inom spårbunden trafik*. The Swedish National Suicide Prevention Conference, Karlstad

#### **International Collaboration**

- Collaboration with various organizations and a network of individuals within the international railway industry working on suicide prevention and trespassing. 2020-Ongoing
- Member of Trespass and Suicide Prevention Network (TreSP-Network), International Union of Railways (UIC). 2020-Ongoing.
- Member of Global Railway Alliance for Suicide Prevention (GRASP working group). 2020-Ongoing.
- Board Member and Treasurer of Little Hill Sweden, an organization providing health experts and senior consultant doctors to child healthcare in Rwanda, 2019–2023.

#### **National Collaborations**

- Trafikverket and Region Stockholm's public transport administration. 2020-Ongoing
- Collaboration with Swedish researchers and organisations, including Karolinska Institutet, VTI, Lund University, Örebro University, Linköping University, Karlstad University, Trafikverket, Boverket MCF, SKR and the Police. 2020-Ongoing
- Member of Suicide Prevention in Stockholm (SPIS), National Centre for Suicide Research and Prevention of Mental Ill-Health (NASP). 2020–2022.
- Swedish Railway Industry Cooperation Forum (JBS). 2016–2022.

#### **Consultancy and expert assignments**

- Expert adviser to Trafikverket, Region Stockholm's public transport administration, SKR, Boverket, the Swedish Railway Industry Cooperation Forum (JBS), municipalities, regions and non-governmental organisations, including Suicide Zero. 2020–ongoing.
- Advises on practical implementation, strategic planning and policy development in suicide prevention within transport systems and public environments.
- Serves as a consultant, expert reviewer and project leader in assignments resulting in reports, recommendations, strategic plans and implemented preventive measures.

- Drafts expert consultation responses on proposed policies, regulations and national guidance concerning suicide prevention in transport systems and public environments.
- Lead author of recommendations on how Trafikverket can strengthen railway suicide prevention and contribute to achieving the national interim target for 2030.
- International expert adviser to the International Union of Railways (UIC) and Papageno.

#### Conference and seminar organizer

- Organizer of the seminar *Suicidprevention i transport och offentliga miljöer – från idé till åtgärd* at the Swedish National Suicide Prevention Conference, Karlstad, 2025.
- Organizer of the Swedish Conference on Suicide Prevention in Rail-bound Traffic, featuring international researchers and infrastructure managers, with approximately 150 attendees at the Karolinska Institutet, 2023.
- Organizer of the UIC TreSP Meeting in Stockholm, 2023.
- Organizer of the seminar *Suicid i transportsystemet: om att säkra våra trafikmiljöer och räddningstjänsten som livsviktig resurs* at the Swedish National Suicide Prevention Conference, Östersund, 2023.

#### Teaching and education

- Responsible for adapting the course *Akut omhändertagande av självmordsnära person* for traffic personnel (AOSP-Trafik), 2024–ongoing.
- Lecturer in suicide prevention, trespassing, safety, psychology, management and leadership for various organizations within the railway industry, 2020–ongoing.
- Educator for railway engineer students at Nackademin, 2021.

#### Digital resources and knowledge dissemination

- Editor of meansrestriction.org, a national website providing evidence based guidance on bridge suicide prevention. Part of RESPI.org, Karolinska Institutet. 2025–ongoing.

#### Clinical experience

- Start-up of the psychologist role and development of processes and instructions for work in the "Mobile Unit" of central student health in Salems kommun.
- Licensed clinical psychologist at Child and Adolescent Psychiatry (BUP) in Region Stockholm and first-line mental health service for children and adolescents in Praktikertjänst.
- PTP-psychologist at Child and Adolescent Psychiatry (BUP) in Region Stockholm.

#### Project management and operational railway experience

- Since 2016, I have managed several complex projects regarding suicide prevention and trespassing within the Swedish railway industry, involving participants from various organizations.
- I have worked as a train traffic controller in the Stockholm subway system, responsible for the operational management of one metro line. The job involved coordinating, directing, and managing train traffic, primarily on the red and green lines. It also involved directing train traffic in the event of accidents or suicidal incidents while ensuring a safe environment for train drivers and passengers.
- I was a platoon commander (manager of approximately 30 soldiers) in the Swedish Air Force during my military service.
